### KONI FSD active

FSD (Frequency Selective Damping) is the revolutionary shock absorber technology by KONI. Whatever the conditions on the road, whatever your driving style - FSD makes intelligent and autonomous split-second decisions for an optimal fine tuning of your car's shock absorber settings. This

way KONI uses FSD to combine the advantages of different damping characteristics - comfortable or sportive - in a single perfect shock absorber. Thanks to innovative KONI technology the shock absorber runs without any electrical components. Low wear, higher durability and thus lower maintenance costs are key to the success of this shock absorber.
